I doubt we're invited but I did ask Steve to send the paper. Let me know if you see any red flags.

Subject: FW: Continuous Air Monitoring Project Update - Transition Team

Hello Dan and Provi,

I just got off a call with Steve T and got a bit of clarification regarding the purpose of the Document (linked below in Teams). I have been asked to check with you both to try to get any comments/edit by COB today. Steve also asked if you could share with Greg, after you get your comments and edits in. I was told Greg has some knowledge of these upcoming calls. If you think you need more time, please let me know. It won't extend our deadline, but Steve will share with David Gray.

There is a call that regional management is having tomorrow with Congressman Richmond's staff. We were told Congressman Richmond will not be participating and David Gray also has a conflict and will not participate. However, our Division Director Cheryl Seager and other management from the Air Program will be on to address questions and maybe criticisms.

On Friday, David is participating on a call with the Transition Team to discuss SPods/Continuous monitors. David will be using this fact sheet for reference during that discussion.

Again, sorry for the short notice and thanks for the help.

Dan,

Please use the link below to review and edit/comment if you have time. Don't have a firm due date yet, I just found out about the request yesterday (noon). At that time, I was told it would be Friday at the latest. Please let me know if you have any questions (give me a call). Thanks
